Summary

- ✓ **A new restore point was created.**
Having a "known" good Restore point will help us get you back up and running if you have trouble in the future.
- ✓ **Windows Updates verified to be running and scheduled.**
Ensuring your PC has the latest updates is very important in the overall security of your PC.
- ✓ **Unwanted software removal.**
We removed any "bloatware" found. This will help with the overall performance of the PC.
- ✓ **Startup speed checked and fixed.**
We optimized programs that run when the PC starts.
- ✓ **We checked the Registry.**
The registry was scanned, cleaned, and optimized after the removal of bloatware.
- ✓ **Junk and Temporary files have been cleaned.**
Excess file buildup can limit storage space and/or slow down your PC.
- ✓ **Windows services have been optimized.**
Unnecessary services can cause slowdowns, crashes, or unwanted popups.
